Experience

from 11/2018 to present **Deputy Team Lead Developer**, *XLeap*, Remote.
Facilitation software.

Within a tightly-knit team, actively advanced a Java application with a 15-year legacy, leveraging modern technologies such as Angular on the frontend and WebSockets. Tackled the challenges posed by enhancing communication with conferencing API, optimizing large user database processing, refining of application usage statistics, advanced charting (heat maps), and compiling dynamic Excel sheets for download. Integrated NGRX and upgraded time-handling system from Moment.js to Luxon.

- **Software:** Java, Angular, WebSockets, SVN, Eclipse, Conferencing API.
- **Industry:** Software development.

from 10/2018 to present **Industry Expert Lecturer**, *Sarajevo School of Science and Technology*, Sarajevo.
Private University validated by The University of Buckingham.

Elevated Software Engineering module with interactive presentations, practical tutorials, and real-world project guidance. Conducted workshops, seminars, and assessments. Provided dedicated mentorship for Bachelor theses.

- **Industry:** Education.

Industry
Versatility

from 05/2020 to 10/2021 **Full Stack Developer**, *MEDrecord*, Remote.

PaaS solution for medical, R&D, healthcare organizations and E-Health start-ups.

Built Angular web applications encompassing admin panels, smart/dumb components, file operations, OAuth, and more, leveraging NgRx and local storage. Expanded a Java Spring REST API by establishing fresh endpoints, integrating PostgreSQL, linking FHIR storage using HAPI library, handling files, and interfacing with other microservices via Feign and Kafka. Enhanced Jenkins workflows, collaborating with DevOps on white-label solutions. Ensured alignment with stakeholders and effectively managed client expectations. Led interviews for mid to senior-level roles.

- **Software:** Java, Spring, PostgreSQL, Feign, Kafka, FHIR, Angular, TS, NgRx, Jenkins.
- **Industry:** Health-tech, PaaS.

from 10/2019 to 05/2020 **Freelance Developer**, *OPERR Technologies, Inc.*, Remote.

Platform-level services including transport software.

Ensured accuracy of client project estimates. Collaborated on Spring/Java microservice architecture, addressing diverse data layers through designated tickets. Implemented a dedicated code reviewer approach to streamline code reviews, ensuring consistency and quality across all development work and boost in team confidence.

- **Software:** Java, Spring MVC, Angular, Typescript, MySQL, MongoDB, GitHub.
- **Industry:** Transportation and dispatching.

from 04/2017 **Software Architect / Lead Developer**, *Pragmatio Solutions*, Sarajevo.

to 11/2019 *Software solutions provider.*

Managed and motivated teams for optimal performance, enhancing client relationships, expanding the workforce, and overseeing key company operations. As Scrum Master, chaired sprint planning, refined user stories into tasks, collaborated on QA criteria, and reviewed code. Presented sprint results to clients. Streamlined hiring processes, conducted technical interviews, and optimized employee allocations for multiple projects. Spearheaded a client project, mentored juniors, and led architectural improvements across teams.

○ **Software:** Angular, Typescript, Java, Git, React Native, Spring MVC.

○ **Industry:** Consulting, outsourcing.

from 12/2015 **Software Development Engineer**, *Amadeus*, Nice.

to 03/2017 *Multinational IT provider for the global travel and tourism industry.*

Played a vital role in the team responsible for the Miles & More program for Lufthansa. Contributed from project inception to completion, emphasizing the depth of involvement. Responsibilities encompassed end-to-end application development, including front-end and back-end tasks. Conducted analysis, development, and rigorous testing, guiding the project across its complete waterfall lifecycle. Served as the primary point of contact between our team and the client, leveraging strong communication skills.

○ **Software:** Angular 2, Typescript, HTML 5, Bootstrap 4, Java, Spring MVC, Git.

○ **Industry:** Travel technology.

from 07/2014 **Software engineer**, *Infobip*, Sarajevo.

to 09/2015 *Mobile services and SMS messaging provider.*

Primarily worked on in-house software solution designed to simplify and streamline the deployment process for various products, a Java-based web application, and provided support across various projects. Contributed to the Email-to-SMS project. Pioneered knowledge-sharing sessions boosting employee confidence, and enhancing cross-team communication.

○ **Software:** Java 7, Spring MVC, Bootstrap, jQuery, Javascript, HTML5 SSE, Guava EventBus, ExtJS, Hibernate, Java servlets, Groovy, Git.

○ **Industry:** Telecommunications.

from 03/2013 **Java developer / Team leader**, *Enit*, Sarajevo.

to 07/2014 *Company for consulting and software development.*

Led a 5-person team in developing a critical JSF-based enterprise application. Optimized SQL queries, enhancing database operations and improving overall efficiency. Introduced structured team meetings, fostering improved communication and collaboration, resulting in increased team satisfaction.

○ **Software:** PL/SQL, Java 6, Spring MVC, jQuery, Javascript, HTML, SVN.

○ **Industry:** Software development.

Education

2009–2012 **Master of Electrical Engineering**, *Faculty of Electrical Engineering, Sarajevo, Computer Science and Informatics Department.*

2006–2009 **Bachelor of Electrical Engineering**, *Faculty of Electrical Engineering, Sarajevo, Computer Science and Informatics Department.*

IT skills

System modeling, Architecture design, SaaS development

General State Management, Prototyping, Functional Reactive Programming

Design Patterns, Debugging, Refactoring, Code Review, Unit Testing

Languages Java, HTML, XML, Javascript, Typescript, PL/SQL, CSS, SCSS

Frameworks Angular, React Native, Bootstrap, Hibernate, Spring

Libraries Angular Material, Chart.js, jQuery, HAPI FHIR

Standards WebSocket, JWT, OAuth

Other Git, REST, Maven, Jenkins, JSF, JSP, Dolby.io, IntelliJ IDEA
