SKILLS AND MISSIONS:

As maxillofacial surgeon in KBC Zemun Surgery Clinic, dr Oroz has many years of specialist and clinical work experience in the field of treatment maxillofacial surgery and neck surgery. In addition to daily clinical work, he

actively participates as a mentor in the education of young doctors and doctors specializing in Otolaryngology and Maxillofacial surgery, as well as other related surgeries branches (Neurosurgery, General surgery and Oral surgery).

He has continuous participation in both foreign and domestic events as moderator and lecturer. He participates in scientific research work together with young colleagues, as a moderator of Round table and co-author of several CC and MedLine indexed papers.

The motive of further professional evolution is to transfer the acquired knowledge in the country and abroad, as well as the experience gained in many years of work, on young doctors and future specialists.
